

# Indiana Worker's Compensation Board - EDI Implementation Plan

April 11, 2018

RE: Indiana Worker's Compensation Board (INWCB) EDI Claims Release 3.1 Information Update

To All Indiana Workers' Compensation Carriers, Claims Administrators, and Self-Insured Employers

Indiana Worker's Compensation Board (INWCB) will be implementing electronic reporting of workers' compensation first reports of injury (FROI) and subsequent reports of injury (SROI). Electronic reporting will be required for all trading partners: insurers, self-insured employers, and claim administrators. Mandatory implementation is planned for January 1, 2019.

Electronic reporting will be via Electronic Data Interchange (EDI) transactions using the Claims 3.1 reporting standards adopted by the International Association of Industrial Accident Boards and Commissions (IAIABC). Additional information on the IAIABC EDI transactions for FROI and SROI can be found online at the IAIABC website, <http://www.iaabc.org>.

The INWCB has contracted with ISO's Workers Compensation Solutions division, to manage its FROI and SROI EDI reporting. ISO will be administering registration of trading partners, testing, data collection and submission of EDI data to the State.

INWCB will provide an enhanced EDI Website that will be available early June 2018. This website address will be provided at that time and will contain the following.

- Trading Partner Electronic Profiles Registration and Instructions to be completed by all Trading Partners
- Trading Partner Training Schedule
- Trading Partner Testing Documentation/Plan. (Note: For Trading Partners that will utilize a Vendor, the Vendor will perform the testing on your behalf)
- INWCB Claims Release 3.1 Implementation Guide and Requirement Tables
- EDI Vendors that may assist with EDI reporting
- Implementation Information that will provide additional information to support the INWCB EDI Reporting Requirements
- Frequently Asked Questions (FAQ) for EDI
- Helpful Web Links
- What's New: Announcements, etc.
